mands that are being made upon the
people for more tax money.

There should be the highest possi-
ble state of efficiency in the manage-
ment of our institutions and the best
possible service and comfort should
be rendered to those depending upon
them. The Republican party is com-
mitted to an economical administra-
tion of the state affairs, and it is my
firm intention, if elected governor, to
exercise full diligence and care in
seeking for the discovery of whatever
elements of waste, extravagance or
over-employment that now exists, to
the end that strict economy may be
practiced in all our institutions and
governmental agencies of whatever
kind and character.

A material saving in revenues can
be accomplished by a careful pruning
of the pay-rolls of the various in-
stitutions and governmental agen-
cies, and a more general observance
of economy in the conduct of the de-
partments; and it is my solemn pur-
pose to give its attention, employing
all the legitimate authority and pow-
er of the governor's office to the in-
auguration of methods and practices
that will guarantee to the people a
safe, progressive and economical ad-
ministration of their business. I am
positively opposed to the creation of
any new office, board or commission
of any kind or character and am
likewise opposed to the increase of
any salary for officers now employed.

Unrestricted tax limitations often
lead to wasteful and even criminal
expenditures of public funds. I am
in favor of a reasonable limitation
law that will make it impossible to
lay useless and burdensome levies on
the taxpayers in any manner or for
any reason whatsoever.

Primary Election Law.
Freedom of thought and political
action or the maintenance of party
entity should not be denied to any
political organization within the
state. The present primary election
law should be amended so as to give
to all political organizations equal
opportunities to a fair and unrestricted
right to a position on the ballot, both
in primary and general elections.
In stating an opposition to the

"Williamson charter" enactment of
the last legislature. I do it upon the
broad principle that communities
having the right to exist in municipal
form under our laws should not be
deprived, even temporarily, of the
right to select their own officers and
manage their own affairs in conformity
to law. This position is no de-
parture from well-settled principles
and customs. It is in keeping with
the very latest Republican party de-
claration, made in convention at
Huntington in 1912. It was there
declared as a party doctrine that
there should be a limit to the power
of the legislature in passing laws
"creating and amending charters of
cities, towns and villages," and pro-
viding that the same shall be made
to conform to a "general law" so that
"cities, towns and villages may have
a system of government which will
carry out the will of the people," etc.
Under this view, resting as it does
upon the principles of right and jus-
tice, the action of the legislature,
whatever transient purpose it may
have sought to serve, of substituting
the will of the chief executive of the
state, no matter how worthy, for the
will of the citizens of Williamson, is
subversive of the popular ideas of
government, and ought to be over-
thrown by legislative act at the
earliest moment, to the end that
other cities and communities may
feel themselves removed from the
danger of similar legislative en-
croachment. I believe in the rights
of municipalities to elect their own
officials.

Roads and Auto Licenses.
As a member of the Southern Ap-
palachian Good Roads Association
and a life-long citizen of the state,
interested in its material de-
velopment, I am in favor of
the permanent improvement of
our highways and believe
that the national and state govern-
ment should assist the local authori-
ties in the establishment and main-
tenance of connected highways, and
that all automobile licenses should be
appropriated for the upkeep of the
permanent roads of the state.

Schools and Free Text Books.
The Republican party was the
founder of the free school system
and has actively promoted and gen-
erously maintained it for all the peo-
ple, rich and poor, high and low,
without regard to race or color. I
am thoroughly in accord with the
promotion of better schools and
school conditions and believe that,
whereas we have provided for com-
pulsory school attendance the state
should, as a further advancement,
furnish free text books, under an ap-
proved uniform system, to all whose
necessities may require them.

Agriculture.
Agriculture as a business and not
merely as a means of livelihood,
should be encouraged among all
those engaged in this calling. Its ad-
vantages as an occupation, when
scientifically followed, should be
called to the attention of the public
generally. While much advancement
in farming and farming methods
have been noted, we have, as a peo-
ple, subjected ourselves to the
suspicion that too much
attention has been paid to the
flattering appeals laid open
by our more prominent resources,
while too little attention is given the
equally promising business of farm-
ing. Our soil is yearning for the at-
tention of skilled hands and is ready
to yield favorable returns to all those
willing to meet the conditions that
the business demands. It should be
the aim of the state to promote, as
far as it legitimately can, the welfare
of the farmers and the advancement
of their occupation. We should be, at
least self supporting, so far as are
concerned the products of the farm
and ought not to be compelled to re-
sort to the products of packing and
cold storage houses brought here
from without the state.

New Deals and Faces.
It will be my aim to provide the
most efficient help in the conduct
of the people's business. The state
departments will be run with the
same object of getting results as
any other business concern, and there
should exist the same terms of em-
ployment as are approved in suc-
cessful business institutions of pri-
vate character. It will be my pur-
pose, if governor, to have a "new
deal" and "new faces" as far as
possible, keeping in mind, of course,
efficient service to the state.

The Virginia Debt.
This is a matter to which I have
given the most serious thought and
devoted conscientious service during
the last three years and it is a sub-
ject concerning which I have strong
personal convictions. But as the
last regular session of the legislature
places the matter of settlement and
compromise in the hands of a special
commission, with which I am not of-
ficially associated, and as the matter
of settlement is now under negotia-
tion and in process of adjudication by
said commission and the Virginia

An Old, Family Cough Remedy, Home-Made

Easily Prepared—Costs Very
Little, but is Prompt, Sure
and Effective

By making this pint of old-time cough
syrup at home you not only save about
\$2, as compared with the ready-made
kind, but you will also have a much more
prompt and positive remedy in every way.
It overcomes the usual coughs, throat and
chest colds in 24 hours, relieves even
whooping cough quickly—and is excellent,
too, for bronchitis, bronchial asthma,
hoarseness and spasmodic croup.

Put from one ounce of drug store Pinex of
Pinex (50 cents worth), pour it into a
pint bottle and fill the bottle with plain
granulated sugar syrup. Full directions
with Pinex. Keeps perfectly and tastes
good.

You can feel this take hold of a cough
or cold in a way that means business. It
quickly loosens the dry, hoarse or pain-
ful cough and breaks the inflamed mem-
branes. It also has a remarkable effect
in overcoming the persistent loose cough
by stopping the formation of phlegm in
the throat and bronchial tubes.

The effect of Pine on the membranes is
known by almost every one. Pinex is a
most valuable concentrated compound of
genuine Norway pine extract combined
with guaiaecol and other natural healing
pine elements.

There are many worthless imitations
of this famous mixture. To avoid dis-
appointment, ask your druggist for "Pinex"
or "Pinex," and do not accept any-
thing else.

A guarantee of absolute satisfaction,
or money promptly refunded, goes with
this preparation. The Pinex Co., Ft.
Wayne, Ind.

Don't Forget—

that when constipation, biliousness or
indigestion is neglected, it may cause
a serious illness. Act upon the first
symptom—keep your digestive organs
in good order by the timely use of

debt commission it would not be
proper for me, at this time, to make
any statement in this regard, feeling
the commission should have full and
unembarrassed freedom of action in
the premises.

Development of Water Power.

The annual waste of our water
energy would, if scientifically con-
served and properly utilized, under
just and wise supervision yield enor-
mous revenues, which would lift to
a substantial extent, the burden of
taxation, as well as provide the de-
velopment of industries within the
state. I believe in the de-
velopment of our water power energy
in a way that would invite capital,
and at the same time, with such su-
pervision and safeguards reserved in
the states as would at all times insure
safety and have due regard for both
public and private rights.

Woman's Suffrage.

The legislature of our state, acting
under the authority conferred upon
it by the constitution, and in keep-
ing with the intelligent thought of
the times, at its last regular session
submitted to the voters of the state,
for ratification or rejection, an
amendment to the constitution, hav-
ing for its object the enfranchise-
ment of women. This puts the issue
directly up to the people for settle-
ment. My position is, that the peo-
ple having been given the opportu-
nity to pass upon this question, and
the same being purely non-partisan in
its nature, that candidates should not
make use of the issue, by bringing it
in to the realm of partisan politics,
for the purpose of furthering their
own political ambitions.

Public Service Commission and

Workmen's Compensation.
The public service commission and
workmen's compensation departments
were established by the legislature
of 1913, during Governor Glass-
